

# SMITHS instruments on a new record-holder

### AUSTIN-HEALEY 100

World record for production cars over the Flying mile at Bonneville . . . . . 142.6 m.p.h.  
World's fastest production car under 3,000 c.c.

(Subject to official confirmation).

Like 9 British cars out of 10 every new Austin-Healey 100 has instruments by Smiths. At any speed the driver can check at once on a clear, compact set of instruments his oil pressure and water

temperature, his rev counter and petrol gauge, and exactly how fast he is driving. Smiths are proud to have made these contributions to the equipment of this sensational new British sports car.

*Worth looking at . . .*

June Duncan is emphatic about the Austin Healey '100':  
 "You can trust this car at any speed . . . it never fails you." And the same can be said for the instruments that Smiths make for the Austin Healey and 9 other cars out of 10. They can be trusted absolutely to give drivers accurate information.  
 On most British cars, other Smiths accessories beside instruments make a big contribution to comfortable, trouble-free motoring.

## WORTH LOOKING AT...

The Austin Healey Sprite is available with Smiths car heating and ventilating equipment, and the Smiths instruments on the dashboard match the car in efficiency and design. The accurate information they provide contribute equally to safe driving and proper maintenance. They are worth looking at.
