AN open sports-tourer or a closed sports saloon in a matter of minutes!

That is the sparkling proposition offered by this smartly designed 'Hard Top' for use with the Austin Healey "3000". Strictly in keeping with the aerodynamic contours of the car, it is made from resilient bonded glass-fibre and is attached at four points by quick release catches. The large wrap-round rear window in no way impedes the excellent rearward vision attributed to the "3000" as an open sports car.

Light and easily handled by two people the 'Hard Top' quickly converts the Austin Healey "3000" into a snug sports saloon.
