Subject: FW: TR 6 For Sale

1976 Triumph Tr 6

This car is an exceptional example of a great restoration, with only 50000 on the odometer.

British Motor Industry Heritage Trust Certified, built July 6, 1976, the final month of TR 6 production.

Original color, Pimento Red, black interior with armrest, matching numbers, 2.5 liter inline 6, 4 speed manual transmission with overdrive,

One of the best TR 6's with many ongoing improvements...

72 spoke chrome wire wheels, 185R15 Redline Tires, Moto Lita Steering wheel, coil springs (Good Parts Inc., Richard Good) and stance upgrades, new front rotors and wheel bearings, LED lights through out (Litzup) Bluetooth/AM/FM/Sirius Radio (Retro) with power antenna, Lucas Driving Lights, Tonneau cover, ... and the best improvement

Triple SU Carbs and intake manifold with heat shield (Good Parts Inc., Richard Good)

TR drives great, handles well and provides a tremendous driving experience.

This car has received recognition at many shows....Pitts Vintage Grand Prix 1st in Class multiple years, British Cars at Hartwood 1st Place, etc.

1976 was a year of "Overriders" (rubber bumperettes) on the front and rear bumpers ...ugh they were ugly ... I took them off, but still have them if you would like to put them on for originally.

Also this car was built with Steel Wheels with trim rings...I still have them.... changed them out for 72 Spoke Chrome Wire Wheels (5 of them)

I have owned the TR since 2019. Purchased from Fraser Dante Limited, Roswell Georgia.

TR is licensed in Pennsylvania and inspected annually.

See Pics below and attachments for more information

Offered at \$47,500 US
